A LEGAL BIBLIOGRAPHY ON
THE PROPOSED FEDERAL
CRIMINAL CODE

Although the proposed Federal Criminal Code has failed to win congressional approval, the policies and legal theories underlying the Code will be important for years to come. To assist those academicians, legislators, and practitioners who will be considering similar pieces of legislation in the future, we offer the following Bibliography.

General format. All citations are numbered consecutively running through the different categorical sections into which the Bibliography is divided. Each section or subsection is alphabetized by author (or title where no author is given). An alphabetized authors index is found at the end of the Bibliography.
